**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Competition is what drives innovation, helps ensure reasonable prices for all, and gives consumers options to choose from. This is what makes America great, and allows small businesses to thrive. Taking away utilities for small businesses to gain a leg up against larger corporations will result in only one or two companies eventually ruling the internet and phone industry. Kind of against what's supposed to be the ethos of the US... I strongly urge you to allow competition in an industry where choices are already very limited. I hope someone at the FCC reading this has a functioning moral compass and is willing to strive for what's right and just.
